No. S. D.8018—C. 73-49-87, Dated Bangalore, 28th March 1950

In exercise of the powers conferred by Rules 75-A, 75-B, and Rule 81 of the Defence of India Rules as applied to Mysore and continued by the Supplies, Services and Miscellaneous Provisions (Temporary Powers) Act 1947 (XX of 1947) His Highness the Maharaja of Mysore is pleased to direct that the following further amendment shall be made in the Articles of Food Acquisition (Harvest) Order 1949, namely :—

To sub-clause (1) of Clause 17 of the said order, issued in Notification No. S.D.-5598—C. 73-49-28, dated 3rd January 1950, the following Proviso shall be added :—

"Provided that nothing in this sub-clause shall apply to the movement or transport (1) from one non-rationed area to another non-rationed area within the State of foodgrains not exceeding ten seers in all by a *bona fide* traveller as part of his luggage for his personal consumption or for his family or (2) from one rationed area to another rationed area or to any non-rationed area within the State or *vice versa*, of foodgrains not exceeding two seers per adult and one seer per child below eight years of age for *bona fide* personal consumption ".

Government further direct with reference to Rule 119 of the said Rules that notice of this amendment shall be given by publication of the same in the *Mysore Gazette.*

Clause 17 (1) after amendment reads as follows :—

"17 (1) All movement or transport of foodgrains from one place to another is prohibited except when such movement is authorised by a permit issued for the purpose by a competent authority appointed by Government.

Provided that nothing in this sub-clause shall apply to the movement or transport (1) from one non-rationed area to another non-rationed area within the State, of foodgrains not exceeding ten seers in all by a *bona fide* traveller as part of his luggage for his personal consumption or for his family or (2) from one rationed area to another rationed area or to any non-rationed area

within the State or *vice versa* of foodgrains not exceeding two seers per adult and one seer per child below eight years of age for *bona fide* personal consumption ".

By Order of His Highness the Maharaja,

No. S.D. 8057—C. 18-49-227, dated Bangalore, 29th March 1950.

In exercise of the powers conferred by sub-rule (2) of Rule 81 of the Defence of India Rules as applied to Mysore and continued by the Supplies, Services, and Miscellaneous Provisions (Temporary Powers) Act, 1947, (Act XX of 1947), His Highness the Maharaja of Mysore is pleased to make the following amendment to "The Foodgrains Import Control Order, 1949" issued under Notification No. S.D. 817—C. 193-48-2, dated 1st—2nd August 1949 and to further direct, with reference to sub-rule (1) of rule 119 of the Defence of India Rules, that notice of this order shall be given by publication in the official Gazette and by the issue of a Press Note, *viz*:—

The following shall be included in the Schedule to the Order as Item 16.—

"16. Sugar manufactured by any process, including sugar made in vacuum pan factories from cane or gur or palmyrah jaggery, as well as khandasari sugar, sugarcandy (misri), bura and powdered jaggery (Mogadum Sugar)."

By Order of His Highness the Maharaja,

A. S. KHALEEL,

Secretary to Government,
Food and Agriculture Departments.

No. M. 15725—P. H. 113-49-5, dated Bangalore, 31st March 1950.

Under Section 20 of the Mysore Prevention of Adulteration Act, IX of 1921, as amended from time to time, the Government of Mysore are pleased to make the rules issued with the Government Notification No. G. 2463—Sany. 61-30-3, dated 22nd September 1931 as

amended in Government Notification No. G. 798—P. H. 136-39-3, dated 29th July 1940 (annexed hereto) applicable to the local limits of Bhadravati Town.

By Order of His Highness the Maharaja,

A. C. NIRVANI GOWDA,

Secretary to Government,
Education Department.

RULES UNDER THE MYSORE PREVENTION OF ADULTERATION ACT.

1. In these rules, "Act" means the Mysore Prevention of Adulteration Act, IX of 1921.

"Section" means Section of the above.

Section 3.—

2. The Officer to whom the local executive officer may delegate his powers shall be of the rank of a Health Officer or shall hold the diploma of Public Health. No legal proceedings under the Act shall be instituted without the permission in writing of the President or the Commissioner as the case may be.

Section 20 (b).—

3. The area within which the local executive officer of a Municipal Council shall exercise powers shall be the Municipal limits of the place.

Section 20 (c).—

4. *Cleanliness of Vessels.*—All vessels, receptacles, or utensils used for manufacturing or preparing food or containing any food intended for sale shall be cleansed with clean boiling water before and after use and shall be kept in a constant state of cleanliness. In case of food likely to be acted upon by the metal of the vessels, receptacles or utensils in which the food is manufactured, prepared or contained for purposes of sale, precautions shall be taken to prevent such metallic contamination.

Section 20 (d).—

5. *How notice of admixture, addition or deficiency shall be given.*—If the vendor of any article intended for

food knows that it is admixed with any foreign substance whatsoever or that any component part has been abstracted therefrom, he shall give due notice of such admixture or abstraction by means of distinct and clear labels in Kannada or in any other language likely to be read and understood by the people, affixed conspicuously on each package or receptacle containing the article. Unless the vendor of any food containing an admixture, addition or deficiency, knows of his own knowledge, that the purchaser is able to read and understand the label, he shall give the purchaser the information contained in the label by word of mouth at the time of purchase.

Section 20 (e).—

6. The standards of purity prescribed for milk, cream, butter and ghee are as follows :—

Milk—

Cow's milk.—(1) Where a sample of cow's milk (not being sold as skimmed or separated milk) contains less than three per cent of milk fat. it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine, by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(2) When a sample of cow's milk or any skimmed or separated cow's milk contains less than 8·5 per cent of milk solids other than milk fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) When a sample of cow's milk whether sold as cow's milk or as skimmed or separated cow's milk contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

Buffalo milk.—(4) Where a sample of buffalo milk (not being sold as skimmed or separated milk) contains less than 4·5 per cent of milk fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk fat or the addition thereto of water.

(5) Where a sample of buffalo milk, whether sold as buffalo milk, or as skimmed or separated buffalo milk,

contains less than nine per cent of milk solids other than milk fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water.

(6) Where a sample of buffalo milk, whether sold as buffalo milk or as skimmed or separated buffalo milk, contains less than 0·53 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine, by reason of the addition thereto of water.

N. B.—The minimum limits for nitrogen prescribed above under (3) and (6) are intended to be used in those cases in which a sample of milk when it is analysed, is so far decomposed that an estimation of the proportion of milk solids other than milk fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

Unspecified milk.—(7) Where a sample of milk, separated milk or skimmed milk is sold or offered for sale or hawked about, without any indication as to whether it is derived from the cow or the buffalo and by comparison with the minimum limits given for the cow's milk in the above, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine for the reason given in the above rule or rules which are applicable.

Maximum limit for dirt in milk.—(8) Where a sample of milk, separated or skimmed milk deposits on standing for a period of 24 hours or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of its containing an excessive amount of dirt.

Cream.—(9) Where a sample of cream contains less than 20 per cent of milk fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

Butter.—(10) Where the proportion of water in a sample of butter exceeds 20 per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the butter is not genuine by reason of the excessive amount of water therein.

Ghee.—(11) Where the proportion of water in a sample of ghee exceeds one per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the ghee is not genuine by reason of the excessive amount of water therein.

Section 20 (*f*).—

7. (1) No person shall add water or any dried or condensed milk or any fluid reconstituted therefrom or any skimmed milk, or separated milk, to milk intended for sale, and no person shall, by himself or by any servant or agent, sell or offer for sale or hawk about any milk to which any such addition has been made.

(2) No person shall abstract any ingredient from milk, without giving due notice of the same, in an unambiguous manner, of the fact of such abstraction therefrom, as prescribed in rules under Section 20 (*d*).

(3) No person either by himself or any servant or agent, shall sell or offer for sale or hawk about as milk, any liquid in the making of which dried milk or condensed milk has been used or to which water or other diluent or adulterant has been added or from which any ingredient has been abstracted, without due notice of the same to the purchaser as prescribed in rule under Section 20 (*d*).

Section 20 (*g*).—

8. Any receptacle containing dried, condensed, skimmed or separated milk shall be labelled with an adhesive label which shall contain the information and be of the size, indicated below. The information shall be in black type, printed or written in the centre of the label which shall be of white colour. Nothing else shall be printed or written on the label, except the name of the article. The label shall be clearly visible to the purchaser and shall measure at least 2" x 4" where only Kannada is used or at least 4" x 4" where more than one language is employed.

Section 20 (*h*).—

9.—(1) Any person taking a sample of milk for the purposes of this Act may add a preservative for the purpose of retaining the sample in a condition convenient for analytical purposes.

(2) The preservative used shall be the liquid commonly known as "formalin" which is a liquid containing about 40 per cent of formaldehyde in aqueous solution.

(3) The amount of preservative added shall be approximately in proportion of one drop of formalin for every 2 oz. of the sample of milk.

(4) Each sample of milk to which formalin has been added by the person taking the sample shall bear a notification on the label to the effect that it has been "artificially preserved."

(5) For the purposes of this rule, milk includes skimmed and separated milk.

10. *Penalty for breach of rules* Every manufacturer or dealer or vendor who (*a*) disobeys, fails to comply with or acts in contravention of the provisions made under Rule 4 herein, in respect of cleanliness of vessels, receptacles or utensils used for manufacturing, preparing or containing any food intended for sale, or (*b*) neglects to affix labels to notify in the manner prescribed, the fact of the admixture of foreign ingredients in the case of adulterated articles of food or abstraction of any component part therefrom of any article of food, or (*c*) fails to give the purchaser in cases mentioned in Rule 5 information contained in such labels by word of mouth at the time of purchase, or (*d*) manufactures, deals in or sells milk, cream, butter or ghee below the standard prescribed in Rule 6 above shall, on conviction before a Magistrate, be punished with a fine not exceeding Rs. 50 and with a fine which may extend to Rs. 50 for every subsequent offence.

Amended Rules.

6. The standards of purity prescribed for milk, cream, curds, butter and ghee, and tea and coffee are as follows:—

Milk.—

Cow's Milk.—

(1) Where a sample of cow's milk (not being sold or offered for sale as skimmed or separated milk) contains less than three per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat or the addition thereto of water.

(2) Where a sample of cow's milk whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 8·5 per cent of milk-solids

other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(3) Where a sample of cow's milk, whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(4) Where a sample of cow's milk whether sold or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 or more than 0·75 per cent of ash, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine by reason of the addition thereto of water, or the addition of extraneous solids, as the case may be.

Buffalo's Milk.—

(5) Where a sample of buffalo's milk (not being sold or offered for sale as skimmed or separated milk) contains less than 4·0 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat, or the addition thereto of water.

(6) Where a sample of buffalo's milk, whether sold or offered for sale as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 9 per cent of milk solids other than milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

(7) Where a sample of buffalo's milk, whether sold, or offered for sale as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 0·53 per cent of nitrogen, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water.

N. B.—The minimum limits for nitrogen prescribed above under (3) and (7) are intended to be used in those cases in which a sample of milk when it is analysed is so far decomposed that an estimation of the proportion of milk-solids other than milk-fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

(8) Where a sample of buffalo's milk, whether sold or offered for sale as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 0·60 or more than 1·00 per cent of ash, it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of the addition thereto of water, or the addition of extraneous solids, as the case may be.

Unspecified Milk.—

(9) Where a sample of milk, separated milk or skimmed milk, is sold or offered for sale or hawked about, without any indication as to whether it is derived from the cow or the buffalo and by comparison with the minimum limits prescribed above under (1), (2) and (3) for cow's milk, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine for the reason given in the above rule or rules which are applicable.

Maximum limit for Dirt in Milk.—

(10) Where a sample of milk, separated milk or skimmed milk deposits on standing for a period of 24 hours or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of this Act, until the contrary be proved, that the milk is not genuine by reason of its containing an excessive amount of dirt.

Cream.—

(11) Where a sample of cream contains less than 20 per cent of milk-fat, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

Curd.—

Curd is the product obtained by lactic acid fermentation of milk.

Curd from Cow's Milk.—

(12) Where a sample of curd from cow's milk, whether sold or offered for sale as curd from cow's milk, contains less than 8·9 per cent of total solids and more than 2·82 per cent of acidity in terms of lactic acid, it shall be presumed for the purposes of this Act, until the contrary be proved, that the curd is not genuine by reason of the addition thereto of water.

Curd from Skimmed (Cow's) Milk.—

(13) Where a sample of curd from skimmed (cow's) milk, whether sold or offered for sale as curd from skimmed (cow's) milk, contains less than 6·1 per cent of total solids and more than 3·28 per cent of acidity in terms of lactic acid, it shall be presumed for the purposes of this Act, until the contrary be proved, that the curd is not genuine by reason of the addition thereto of water.

Curd from Buffalo's Milk.—

(14) Where a sample of curd from buffalo's milk, whether sold or offered for sale as curd from buffalo's milk, cotains less than 9·8 per cent of total solids and more than 3·45 per cent of acidity in terms of lactic acid, it shall be presumed for the purposes of this Act, until the contrary be proved, that the curd is not genuine by reason of the addition thereto of water.

Curd from Skimmed (Buffalo's) Milk.—

(15) Where a sample of curd from skimmed (buffalo's) milk, whether sold or offered for sale as curd from skimmed (buffalo's) milk, contains less than 7·3 per cent of total solids and more than 3·55 per cent of acidity in terms of lactic acid, it shall be presumed for the purposes of this Act, until the contrary be proved, that the curd is not genuine by reason of the addition thereto of water.

Curd from Skimmed (Unspecified) Milk.—

(16) Where a sample of curd from skimmed milk is sold or offered for sale or hawked about, without any indication as to whether it is made of cow's or buffalo's milk and by comparison with the limits prescribed above under (13) for curd from skimmed (cow's) milk, it appears to be adulterated, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

Butter.—

(17) (*a*) Where the proportion of water in a sample of butter made from cow's or buffalo's milk or cream exceeds 20 per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the butter is not genuine by reason of the excessive amount of water therein.

NOTE.—Rules 18 and 19 which are intended to be used in the case of ghee samples shall also apply in the case of butter which may be clarified into ghee for this purpose.

(*b*) No preservatives except salt shall be used.

Ghee.—

(18) Where the proportion of water in a sample of ghee made from cow's or buffalo's butter exceeds one per cent, it shall be presumed for the purposes of this Act, until the contrary be proved, that the ghee is not genuine by reason of the excessive amount of water therein.

(19) Where a sample of ghee, whether sold or offered for sale, as cow's ghee or buffalo's ghee or mixed ghee does not satisfy the following values, it shall be presumed for the purposes of this Act, until the contrary be proved, that the sample is not genuine.

	Refractive Index at 40°C	Reichert Meissl value	Polenske value	Free Fatty Acids as oleic, per cent	Saponification value	Iodine value
		Not less than	Not less than	Not more than	Not less than	Not more than
Cow's Ghee ...	41·0—44·0	21·0	1·5	0·20	225	41·0
Buffalo's Ghee	41·0—44·0	27·0	1·5	0·30	225	41·0
Mixed Ghee ...	41·0—4·0	25·0	1·5	0·28	225	41·0

Tea.—

(20) (*a*) Tea shall be derived exclusively from the leaves and buds of plants of the *Camellia* genus and *Thea* species.

(*b*) Tea shall contain—

(i) a proportion of extractive matter in boiling water which is not less than 40 per cent,

(ii) a proportion of total ash of not less than 4 per cent and not more than 8 per cent,

(iii) a proportion of ash insoluble in boiling water which is not more than 3·0 per cent, and

(iv) the total alkalinity of the ash as K_2O should not be less than 1·7 or more than 2·0.

N.B.—For the purpose of this rule, the ash of tea shall be determined on dry tea, that is, tea dried to constant weight at 100°C.

(*c*) Where a sample of tea does not comply with all the standards specified in sub-rules (*a*) and (*b*), it shall be presumed for the purposes of this Act, until the contrary be proved, that the tea is not genuine.

Coffee.—

(21) (*a*) "Coffee" means the seed of cultivated varieties of *Coffea arabica*, *Coffea liberica* and *Coffea robusta*.

"Green, raw or unroasted Coffee" is coffee freed from all but a small portion of its spermoderm, and conforms in variety and in place of production to the name it bears.

"Roasted Coffee" means properly cleaned green coffee which by the action of heat (roasting) has become brown and has developed its characteristic aroma and shall not contain any admixture of other substances than coffee, save as under (*d*).

(*b*) Coffee shall contain—

(i) a proportion of extractive matter in boiling water which is not less than 30 per cent,

(ii) a proportion of total ash of not less than 4 per cent and not more than 5 per cent,

(iii) a proportion of ash insoluble in boiling water which is not more than 1·4 per cent, and

(iv) the total alkalinity of the ash as K_2O should not be less than 1·8 or more than 2·2.

N.B.—For the purpose of this rule, the ash of coffee powder shall be determined on dry coffee powder, that is, coffee powder dried to constant weight at 100°C.

(*c*) Where a sample of coffee does not comply with all the standards specified in sub-rules (*a*) and (*b*) it shall be presumed for the purposes of this Act, until the contrary be proved, that the coffee is not genuine.

(*d*) The only permissible adulterant to coffee is chicory, which may be added to the coffee in a proportion not exceeding 50 per cent. The fact of such an addition and the exact proportion of the adulterant shall be clearly indicated on the label of the container or packet, containing the mixture, in a conspicuous place and in distinct legible letters.

When ground coffee is sold or exposed for sale in loose form, *i.e.*, other than in specifically prepared packets or containers, the receptacles containing the coffee, or on which it is exposed or kept for sale, shall be labelled with labels indicating the nature and extent of the adulterant present (if any) in letters less than one-half of an inch in size. Absence of such a label will be taken to imply that the coffee so kept or exposed for sale is meant to be sold as pure coffee.
